

James Patrick Loveless

1751 MTSU Boulevard, Box 87 • Murfreesboro, TN 37132
James.loveless@mtsu.edu • (615) 898-5288

EDUCATION

University of Virginia: Charlottesville, Virginia

Postdoctoral Fellowship in Behavioral Medicine

August 2019

East Carolina University: Greenville, North Carolina

Doctor of Philosophy in Health Psychology

July 2017

Emphasis: Clinical Health

APA Accredited Clinical Psychology Program

Master of Arts in Clinical Psychology

May 2015

Clemson University: Clemson, South Carolina

Master of Education in Counselor Education

August 2011

Emphasis: Clinical Mental Health Counseling

CACREP Accredited Program

Bachelor of Science in Psychology

May 2009

Minor: Public Health Sciences

Summa Cum Laude

PROFESSIONAL LICENCURE

Tennessee

Licensed Psychologist -Health Services Provider

License Number P0000003681, Expiration Date 10/31/2025

TEACHING EXPERIENCE

TriStar Centennial Medical Center: Nashville, TN

July 2022 – Present

Psychiatry Residency Program

Adjunct Graduate Medical Faculty

- Provides didactic instruction to PGY-1, PGY-2, and PGY-3 psychiatry residents on topics related to clinical interviewing and evidence-based psychotherapies for adult psychopathology and health behavior change

Middle Tennessee State University: Murfreesboro, TN
Department of Psychology

August 2019 – Present

Assistant Professor

- Provides mentorship and formal instruction to graduate and undergraduate students enrolled at MTSU
- Courses taught/facilitated:
 - Psychology 3990: Research in Psychology
 - Psychology 4110: Issues and Ethics in Mental Health Services
 - Psychology 4650: Health Psychology
 - Psychology 6340: Behavioral Medicine Theory and Application
 - Psychology 6390: Independent Research in Clinical Psychology
 - Psychology 6640: Thesis Research
 - Psychology 6690: Professional Issues & Roles
 - Psychology 6801: Interviewing and Interventions

South University: Richmond, VA
Physician Assistant Program

January 2018 – August 2019

Invited Guest Lecturer

- Provided lectures to PA students on topics related to the delivery of mental health services in medical settings, health psychology, and behavioral medicine

East Carolina University: Greenville, NC
Department of Psychology

August 2012 – May 2016

Graduate Student Instructor (January 2016 – May 2016)

- Taught Psychology 6461: Clinical Psychology Practicum II (Cognitive Assessment)
- Provided instruction on the administration, scoring, and interpretation of standard cognitive assessment testing batteries (i.e., WAIS-IV, WISC-V, WJ ACH-IV, & WMS-IV) for the 1st year students in the clinical health psychology doctoral program

Graduate Student Co-Instructor (August 2015 – December 2015)

- Co-taught Psychology 6466/6460 Psychotherapy Concepts and Techniques
- Provided instruction on the basics of clinical practice for 1st year students in the clinical health psychology doctoral program
- Facilitated experiential learning through therapy role-plays and peer supervision

Graduate Student Co-Instructor (August 2014 – December 2014)

- Co-taught Psychology 6466/6460 Psychotherapy Concepts and Techniques
- Provided instruction on the basics of clinical practice for 1st year students in the clinical health psychology doctoral program
- Facilitated experiential learning through therapy role-plays and peer supervision

Graduate Student Instructor (January 2014 – May 2014)

- Taught Psychology 1000: Introduction to Psychology
- Provided instruction for approximately 100 undergraduate students
- Helped students gain an appreciation for the complexity of human behavior through an exploration of the broad topic areas within the field of psychology

Graduate Teaching Assistant (August 2012 – May 2013)

- Co-taught Psychology 1000: Introduction to Psychology
- Provided instruction for approximately 30-40 undergraduate psychology students per semester
- Helped students gain an appreciation for the complexity of human behavior through an exploration of the broad topic areas within the field of psychology

Clemson University: Clemson, SC

August 2011 – May 2012

Department of Psychology

Adjunct Lecturer

- Taught Psychology 202: Introduction to Psychology Laboratory
- Provided instruction for over 100-150 undergraduate psychology students per semester
- Offered supervision for graduate student teaching assistants
- Guided students in exploring psychology as a science and as an applied knowledge base

DIRECTED THESES

Chloe Klinedinst; Master's thesis

Grit, growth mindset, and gender differences in college students

May 2024 – Present

Ashley Schultz; Master's thesis

Sex differences in sleep quality based on single vs. multiple concussions

August 2023 - Present

Amia Osibanjo; Master's thesis

The effect of gender on caregivers' subjective burden and attitudes related to seeking formal care

August 2023 - Present

Connor Mosberg; Undergraduate honors thesis

Testing the effect of dramatic arts exposure on state affectivity among a sample of college students

January, 2023 – May, 2024

Nichole Sullivan; Master's thesis

An exploration of sleep hygiene as a predictor of migraine headache severity and disability

August, 2021 – May, 2023

Sarah Marie Cho; Master's thesis

Cleanliness is next to godliness: Exploring the limits of the cleanliness-morality link

August, 2021 – December, 2022

Samantha Eisenberg-Godsey; Master's thesis

The impact of reward sensitivity on the relationship between hedonic hunger and loss of control eating

August, 2020 – July, 2022

Mariela Diaz Bonilla; Master's thesis

Mental health as a moderator in the relationship between sleep quality and social media usage among college-aged women

August, 2020 – July, 2022

Adam Dockery; Undergraduate honors thesis
Sleep hygiene and subjective sleep quality among college students in different living arrangements
August, 2021 – May, 2022

Katherine Hitchcock; Master's thesis
Cardiovascular emotional dampening, disgust, and consumption likelihood
August, 2020 – May, 2022

Hailey Hall; Undergraduate honors thesis
Mind your pressure: A study on the effect of trait mindfulness on resting blood pressure
January, 2021 – December, 2021

Sean Ganus; Master's thesis
A comparison of the perceptions and experiences of undergraduate students, graduate students, and faculty in university psychology programs
June, 2020 – May, 2021

THESIS & DISSERTATION COMMITTEE SERVICE

Cassie Patterson; Master's thesis
Analyzing the effects of hemoglobin and red blood cell count on executive function in healthy older adults

Shelbie Fann; Master's thesis
Psychological functioning of siblings of individuals with intellectual or developmental disabilities

Reanna Trexler; Master's thesis
Increasing the ecological validity of traditional neuropsychological assessments

Jeremy Shirey; Master's thesis
The roles of resilience, grit, and academic resilience on student achievement while controlling for depression, anxiety, and stress

Rhea Maladkar; Master's thesis
Validating the mindfulness skill scale

Nickie Brillion; Doctoral dissertation
Perceptions of food environment and diet quality

JoRya Cornett; Master's thesis
An explanation of the connection between giftedness and emotional intelligence

Amanda Wilson; Undergraduate honors thesis
The relationship between fruit and vegetable intake and resilience of college-aged students with histories of childhood maltreatment

Claire Myrick; Master's thesis
Lexical and semantic spreading activation in mild to moderate Alzheimer's disease

Karrie Hubbard; Master's thesis
Childhood emotional abuse and depressive symptoms in college students

Sarah Parker; Master's thesis
Factors that affect perceptions of negative dating relationships

Heather Wood; Master's thesis
The relationship between perfectionism and achievement goals in high achieving college students

Charles Hicks; Master's thesis
Assessing right parietal lobe functions in Alzheimer's disease using the mass overlapping figures test

Andrea Davis; Master's thesis
An investigation of the relationship between weight status and posterior neuropsychological functioning

RESEARCH EXPERIENCE

Faculty Principal Investigator: Middle Tennessee State University August 2019 – Present
Health Psychology Research

- Working on projects involving cardiovascular psychophysiology to understand the relationships between cardiovascular functioning and various psychological/behavioral phenomena related to emotion processing and health
- Working to establish collaborations with other faculty across departments as well as other institutions to explore other areas of shared research interests (i.e., sleep, treatment adherence, managing patient behavior, etc.)

Postdoctoral Fellow: University of Virginia August 2017 – August 2019
Health Psychology Research, Dr. Amit Shahane & Dr. Joanna Yost (Faculty Collaborators)

- Worked on multiple research projects: the effectiveness of CBTi in the treatment of insomnia for HIV patients; quality of life and treatment adherence for patients diagnosed with cancer; enhancing community engagement for men's health initiatives; exploring interprofessional training experiences among psychology trainees; and improving inpatient medical care with MI and behavior management training for health professionals
- Also provided statistical consulting for psychologists working in UVAs Behavioral Medicine Center

Doctoral Dissertation: East Carolina University Fall 2015 – Summer 2017
Psychophysiology Research, Dr. Erik Everhart (Faculty Supervisor and Committee Chairperson)

- Performed a study exploring the effects of cardiovascular emotional dampening at differing levels of emotion processing
- Used electrophysiology equipment (i.e. EEG, ECG, and CNAP) to measure brain activity, heart rate, blood pressure, and respiration

Research Assistant: East Carolina University August 2012 – May 2016
Psychophysiology Research, Dr. Erik Everhart & Dr. Matthew Whited (Faculty Supervisors)

- Worked on multiple research projects related to health and psychophysiological functioning
- Projects topics have included: personality, neurophysiology, and CPAP adherence among obstructive sleep apnea patients; cardiovascular correlates of emotional regulation; depression, behavioral activation, and cardiovascular functioning
- Gained experience with clinical trials research

Master's Thesis: East Carolina University March 2014 – March 2015
Psychophysiology Research, Dr. Erik Everhart (Faculty Supervisor and Committee Chairperson)

- Designed and executed a study exploring the relationships between heart rate variability, emotion regulation, and cardiovascular emotional dampening
- Used Biopac Systems electrophysiology equipment (i.e. ECG and CNAP) to measure continuous heart rate, blood pressure, and respiration
- Supervised and mentored an undergraduate research assistant through data collection

Senior Research Assistant: Clemson University August 2009 – May 2012
Psychophysiology Research, Dr. Jim McCubbin (Faculty Supervisor & Lead Investigator)

- Studied the relationships between high blood pressure, pain analgesia, and emotional dampening
- Worked in all aspects of the research process: design, IRB review, implementation, analysis, and interpretation
- Supervised and mentored a team of undergraduates through the research process

Creative Inquiry Team: Clemson University January 2007 – May 2009
Educational Psychology Research, Dr. Ben Stephens (Faculty Supervisor & Lead Investigator)

- Defined and examined structural characteristics of intern e-Portfolios from Clemson University's, National Science Foundation sponsored Summer Research Experience for Undergraduates program
- Collaborated with a team of graduate and undergraduate students throughout the project

East Carolina University PASS Clinic: Greenville, NC

May 2013 – May 2016

Clinical Health Psychology Training Clinic

Graduate Student Practicum - CBT Service (January 2014 – May 2016)

Supervisors: Tony Cellucci, Ph.D., ABPP & Matthew C. Whited, Ph.D.

- Performed intake assessments, and psycho-educational testing for the clinic
- Provided individual counseling services for smoking cessation, weight loss, and common psychological dysfunction (i.e. depression, anxiety, personality disturbances, psychosis, etc)
- Utilized evidence-based treatments for depression, anxiety, anger management, and personality dysfunction (i.e. CBT, Behavioral Activation, Schema Focused Therapy, Acceptance and Commitment Therapy, and Dialectical Behavior Therapy)
- During the summer of 2015, provided supervision and guidance to doctoral student trainees entering into the clinic

Graduate Student Practicum – Healthy Weight Service (May 2013 – December 2013)

Supervisor: Leslie Lutes, Ph.D.

- Facilitated weight loss groups
- Utilized evidence-based treatments for weight loss and smoking cessation (i.e. Small Changes CBT approach to weight loss, and CBT for smoking cessation with weight gain prevention)

East Carolina Heart Institute: Greenville, NC

July 2014 – May 2015

Outpatient Medical Center

Advanced Graduate Student Practicum

Supervisors: Sam Sears, Ph.D. & Amanda Whited, Ph.D.

- Worked with an interdisciplinary team of professionals to care for individuals suffering from heart failure and other cardiovascular related maladies
- Performed screening services to identify patients who could benefit from behavioral treatment for poor adjustment and treatment adherence
- Facilitated evidence-based treatments for those struggling to manage their cardiovascular disease effectively
- Provided education to patients about the behavioral management of heart disease

Behavioral Health Services of Pickens County: Pickens, SC
SC DAODAS Commissioned Private Non-profit Agency

August 2010 – July 2012

Contractual Clinical Counselor (May 2011 – July 2012)

Supervisors: Angie Farmer, M.Ed., LPCS, CACII & Sam Medders, M.S., CACI

- Performed diagnostic assessments for clients presenting with a wide range of psychopathology
- Aided clients in developing individualized goals for treatment
- Collaborated with an interdisciplinary team of practitioners to provide comprehensive treatment services for clients
- Provided individual counseling services
- Facilitated BHSPC's batterers intervention program

Graduate Student Internship (August 2010 – May 2011)

Supervisors: Angie Farmer, M.Ed., LPCS, CACII & Sam Medders, M.S., CACI

- Performed diagnostic assessments for clients presenting with a wide range of pathology
- Aided clients in developing individualized goals for treatment
- Collaborated with an interdisciplinary team of practitioners to provide comprehensive treatment services for clients
- Provided individual counseling services, and facilitated BHSPC's batterers intervention program

New Foundations Home for Children: Anderson, SC
Private Non-profit Community Mental Health Agency

January 2010 – May 2010

Graduate Student Practicum

Supervisor: Rick Gorrell, M.Ed., LPC

- Performed intake assessments for New Foundations' batterer intervention and anger management treatment programs
- Co-facilitated New Foundations' batterers intervention and anger management treatment programs
- Participated in treatment planning for the residents of New Foundations' group home
